Management and Reporting System (MARS) Portal

Key navigation changes summary

The following lists the **key navigation changes** planned for update to the Management and Reporting System (MARS) Portal:
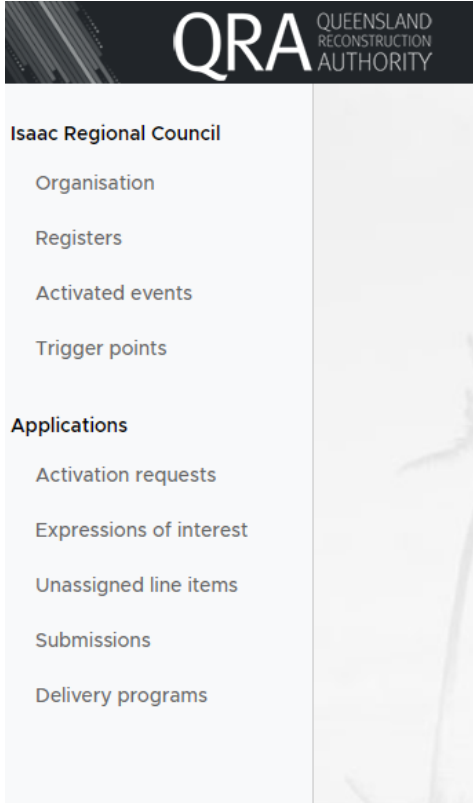

Main navigation menu orientation

Current or previous version of the MARS Portal

Main menu navigation available from portal banner bar.

| **New** version of the MARS Portal |
| --- |

Main menu navigation change to left hand **navigation pane**.

All **existing functionality is retained** and visible in the navigation pane.

The navigation pane remains available at all times to facilitate ease of navigation to other parts of the MARS Portal.

Submissions list view filters

| Current or previous version of the MARS Portal |
| --- |
| *Filters available above the list view in the Search panel.* |
| **New** version of the MARS Portal |
| Filters change to in the list view **column heading** row. Click the **filter** next to a column name to filter the submission list by selection. The default display view remains current or active submissions. |
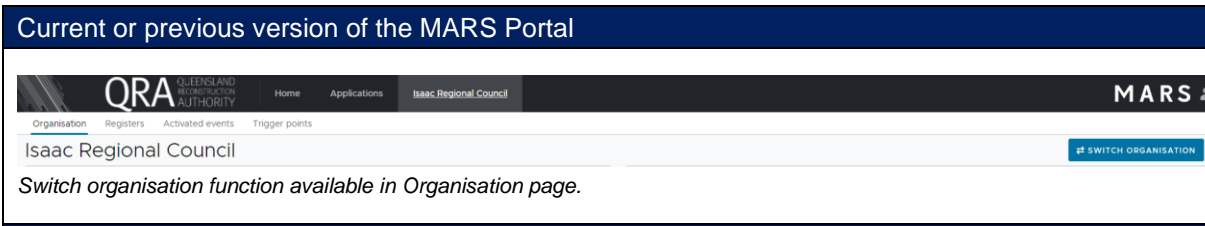

'Switch organisation' function has moved

| Current or previous version of the MARS Portal |
| --- |
| *Switch organisation function available in Organisation page.* |
| **New** version of the MARS Portal |
| The **switch organisation function** change to drop down menu from the **user profile icon.** If you are a contractor, you may have access to multiple organisations in MARS. |
